HPE Networking Instant On Switch Series 1960

Big on bandwidth. Little on cost.

Fantastic deals on selected HPE Networking Instant On Switch Series 1960 SKUs

Smart and scalable: The Instant On Switch Series 1960 offers smart and scalable networking to meet the growing demands of modern businesses. With increased bandwidth, simplified management, and support for multiple devices, it's the ideal solution for high-performance connectivity. Combine 1960 switches with Instant On access points and Secure Gateways to create a seamless, end-to-end networking solution that delivers maximum value and reliability.

Take advantage of the following Instant On 1960 SKUs, at a discounted rate until 7th November 2025.
Contact your local HPE Networking Instant On representative for promotional details.

SKU	Description
JL807A	HPE Networking Instant On 1960 24G 2XT 2XF 370W Sw
JL809A	HPE Networking Instant On 1960 48G 2XT 2XF 480W Sw

*Different SKUs for Israel and Egypt.

More about the HPE Networking Instant On Switch Series 1960:

In environments where performance and flexibility matter, the 1960 is the right choice for robust wired connectivity.

With Instant On, from access to aggregation, create a scalable, high-performance, and easy-to-use network that comes with enterprise-grade security protection. These two PoE access switches are foundational to deploying the Wi-Fi network. Still, they can also power the most demanding devices such as digital displays or smart interactive whiteboards, high-end surveillance equipment, smart lighting, and more to support your customers' evolving business needs.

Benefit from improved security, energy cost savings, and troubleshooting directly from our Instant On management platform with no subscription fee. And we've recently released Automated Client Classification to give better visibility with wired clients connected to the network and simplify configuration with easy replication of switch Port Profiles!

Hewlett Packard Enterprise

HPE Networking Instant On Switch Series 1960 24G 20p Class4 4p Class6 PoE 2XGT 2SFP+ 370W Switch (JL807A)

HPE Networking Instant On Switch Series 1960 48G 40p Class4 8p Class6 PoE 2XGT 2SFP+ 600W Switch (JL809A)

# HPE Networking Instant On Switch Series 1960

- Gigabit access ports with PoE support to power any equipment. Class 6 PoE support on select ports (up to 60W)
- Additional 10GbE Base-T and SFP+ ports provide high bandwidth to critical equipment or to interconnect switches
- Note: Instant On SFP/SFP+ transceivers and DACs tested and supported
- Easy Stack up to 4 switches with any combination of models
- Robust security to protect the network
- Embedded TPM chip ensures trusted infrastructure
- 802.1X support with RADIUS assigned VLANs and other access control and segmentation features
- ARP and DoS attack prevention
- Flexible management modes Cloud based or local Web GUI (exclusive mode and features may differ)
- L2+ switching with more advanced features (via local management) such as DHCP server, IPv6, remote syslog & snmp read

Ideal environments:

- In a solution sale, likely in conjunction with other 1960 models
  – High bandwidth application or use cases (design firm, research and development, education)
  – Larger SMB networks in size or physical spread
  – Small server room on-prem
- Adoption of a solution integrating some PoE-powered equipment with the need for more than 30 W
  – High-end video surveillance
  – Powerful access points
  – Digital signage, kiosk displays, point of sale terminals, like retail and hospitality
  – Collaboration through high-end Video conferencing equipment or phones
  – Thin-client PC (education, small office)
  – Smart lighting in modern environments
